

ZIVOX

GLOBAL TECHNOLOGIES

Systematic Trading, **Engineered For Discipline.**

ZIVOX

About Company

ZIVOX at a Glance.

One engine runs our strategies, checks risk on every order and executes across Forex and Crypto.

We are

- **Technology-driven trading company**
  To generate trading volume & market experience
- **Builder of ZIVOX Bot**
  Our own engine for strategies, risk and execution
- **Copy trading provider**
  Tracks mirrored in proportion to each account
- **Operator of automated strategies**
  Forex bots and Crypto strategies for every system
- **Risk-first by design**
  Every order is checked before it reaches the market

We are not

- ⚠ A bank or broker
- ⚠ An investment company
- ⚠ A source of guaranteed returns

Zivox Global Technologies

Technology-driven trading company

Quarterly 2026

2	24/7	1
Core markets	**Market monitoring**	**Core engine**
Forex + Crypto	Crypto never sleeps	Zivox Bot

KEY ZIVOX BENEFITS

Market data → ZIVOX Bot → Risk check → Execution → Copy accounts

Quarterly 2026

Presented by CEO
Stephane Cote

Focus on
Bot, copy, All Hub

MARKET COVERAGE

Sydney → Tokyo → London → New York → Crypto 24/7

ZIVOX

Mission and values

What Guides Every Decision.

Mission

Bring structure and discipline to trading through technology.

Vision

An intelligent trading infrastructure, connected to everyday tools.

Discipline
Builds before every trade

Risk first
Checked before orders

Honesty
Profit or loss, shown

Explainable
Clear how it works

Security
No possession asked

Learning
Reviewed as markets change

ZIVOX

Stephane Cote
Founder and CEO

Leadership

Leadership Perspective.

> **We were not trying to build another trading company. We were trying to build a system.**
>
> Every tool we have built came from one question: would it make our execution more structured, more consistent, and more explainable? If not, we did no ship it just to look advanced.

Structured
Rules before every trade

Consistent
Same process, every market

Explainable
Clear logic & results

ZIVOX

◆ Trading Explained

Two Markets, Two Personalities.

Forex EUR/USD, GBP/USD, USD/JPY		Crypto BTC/USDT, ETH/USDT, SOL/USDT
5 days	**Trading days** per week	7 days
Lower	**Volatility** how far price moves	Higher
Very deep	**Liquidity** ease of trading	Split by exchange
Strong	**Economic data** rates, inflation, jobs	Moderate
Moderate	**Sentiment** flows and derivatives	Strong

ZIVOX

◆ ZIVOX Bot in Forex

From one signal to every copy account.

1. **Market data**
   Live prices, spreads and the economic calendar
2. **Session filter**
   Only bots suited to the open session may trade
3. **Bot signal**
   A Forex bot finds a setup that meets its rules
4. **Risk engine**
   Size, stop, target and total exposure checked
5. **Execution**
   The order goes on the strategy account
6. **Copy engine**
   ZIVOX Bot mirrors it to every follower
7. **Monitor and close**
   Exits are mirrored results are recorded

Inside the copy engine

Illustrative sizes. Each follower copies in proportion to the set allocation.

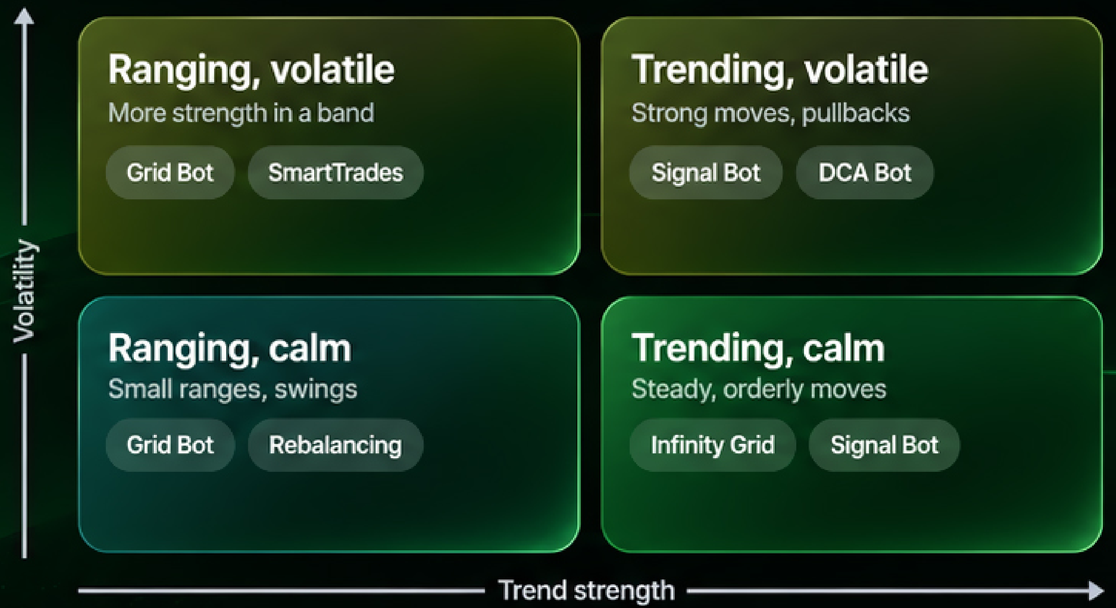

Copy trading rules

- **Proportional size**
  Scaled to each account's allocation
- **Same stop and target**
  Protection copied with the trade
- **Opens and closes mirrored**
  No manual action needed
- **Your limits, your control**
  Pause or stop copying any time

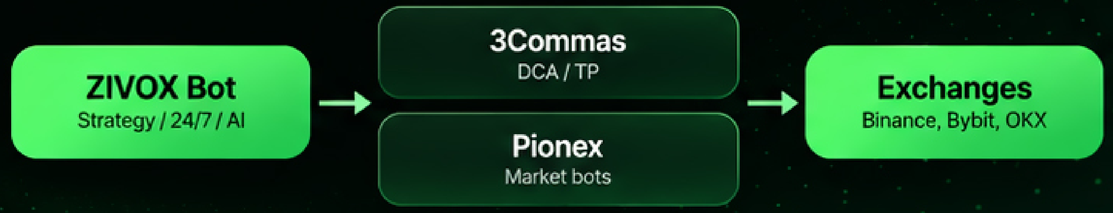

ZIVOX

How we work in Crypto

Open 24/7. Strategy Follows The Mood.

L1	**Price** Candles, volume, books	Exchanges
L2	**Exchange flows** Inflows and reserves	CryptoQuant
L3	**On-chain** Network activity	Glassnode
L4	**Derivatives** Funding, liquidations	Coinglass
L5	**News** Headlines and alerts	News feeds

ZIVOX

◆ AI Core

Where Market Data Becomes Intelligence.

LIVE MARKET DATA
Forex · Crypto · Price action · Volume · Market signals

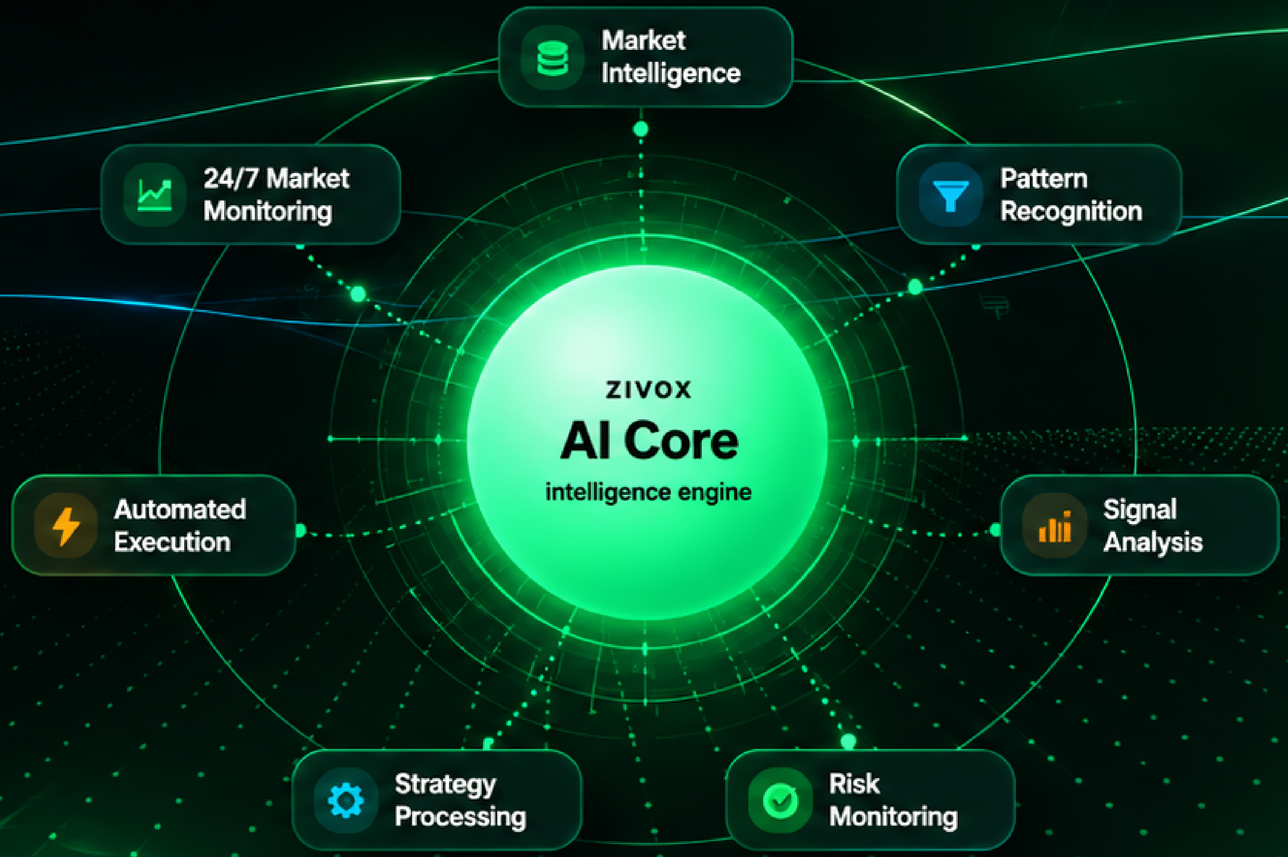

AI ANALYSIS
Pattern detection · Market scanning · Signal processing · Sentiment context

STRATEGY ENGINE
Rule-based logic · Systematic strategies · Risk parameters

EXECUTION
Trade monitoring · Automated execution · Position management

CONTINUOUS FEEDBACK
Performance data · Market changes · Strategy adaptation

AI supports analysis, monitoring and execution. It does not guarantee results.

ZIVOX

◆ How the AI Hub works

Five Stages, One Continuous Loop.

ZIVOX

◆ Human + AI

Experience & Technology, Working as One.

HUMAN INTELLIGENCE

Market experience

- Market understanding
- Strategy design
- Risk awareness
- Decision framework

RESULT

ZIVOX Trading Infrastructure

MACHINE INTELLIGENCE

AI technology

- Data processing
- Pattern detection
- Market monitoring
- Execution support

Human experience + AI technology = ZIVOX Trading Infrastructure

Technology **supports structured market operations.** It does not replace human judgment.

ZIVOX

◆ Beyond trading

One Account. A Whole Ecosystem.

Important risk information

Trading Forex and Crypto involves significant risk. Automated strategies and copy trading can lose money, and past results do not indicate future performance. ZIVOX is not a bank, broker, investment company, or asset manager. Nothing here is financial advice. ZIVOX Token is planned and not yet available; nothing here is an offer to buy or sell any token.

ZIVOX

Risk

Risk disclosure.

Read before participating

Trading and digital-asset activities involve risk, including the possible loss of deposited funds. Trade profit is not guaranteed and may vary according to market conditions and applicable program terms.

Variable trade profit

0.75% is an upper limit per trading day. Results may be lower, including zero or negative.

Network-dependent rewards

Partner rewards depend on other accounts' activity and volume, which you do not control.

Caps and limits

Trade profit is limited at 2x and partner rewards at 4x. Reaching either is not assured.

Access to funds

One 24-hour withdrawal window each Saturday, $35 minimum and a 5% fee.

On-chain transfers

USDT sent on the wrong network, or to a wrong address, may not be recoverable.

Regulatory status

Licensing and authorization details have not yet been provided for this program.
